

Cardboard Trays

Technical Data Sheet - Commercial

Description

Cardboard trays and baskets are specially manufactured to protect the fruit and offer the consumer excellent visibility of the product.

They are an ideal alternative to plastic or polystyrene trays, as they are a renewable resource and 100% recyclable.

In addition, they allow personalised communication, with the aim of increasing visibility on the shelf.

Advantages

- Customisation capacity due to the wide variety of printing options (flexography, digital, etc.).
- They help to increase sales through attractive presentation.
- Reduced damage during transport due to strength and stability.
- Environmentally friendly product: 100% recyclable and made from a renewable resource.
- They do not require specialised labour for assembly.
- Reduced storage space and logistics costs as the product is delivered flat.
- They allow the packaging of products that require a barrier to water or grease, such as take-away or confectionery packaging.

Applications

Perfect for serving hot and cold food and all kinds of vegetables. For example:

- Avocado
- Mango
- Tomato cherry
- Courgettes
- Plums
- Sultanas, etc...

Storage

Store in conditions that prevent deformation of the product, away from heat sources and protected from direct sunlight.

Recommendations

Store in a clean, dry place.

Printing

High quality printing available for optimal presentation.

Technical Sheet

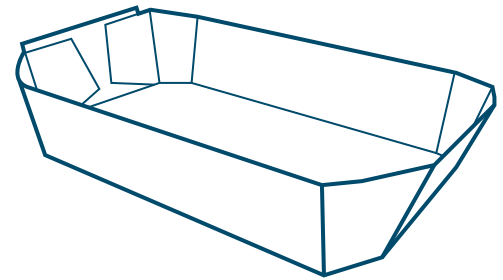

Components

Material:
Kraft coated, cardboard

Presentation:
Some references have ventilation holes available in case the fruit needs an air flowing environment.

Possibility of personalisation:
Yes, on request

Quality:
100% recyclable and biodegradable material.

Medidas

Base:
Length: From 123 to 270 mm
Base width: From 50 to 105 mm
Wing width: From 32 to 105 mm

Development:
Total Length: From 214 to 365,5 mm
Total width: From 119 to 304,5 mm

Standardised:
Yes. Suitable for food contact.

*For specific sizes or colours, please consult your sales representative.

Octagonal trays and rectangular

Designed to pack all kinds of fruit and vegetables in an elegant and visual way. They are the perfect combination for packaging with flow pack sheets.

Trays with handles and holes

Ideal for those vegetables or fruit that need air flow.

Octagonal and rectangular baskets with or without holes

These baskets are perfect for packing a larger quantity of fruit than with trays, as they hold more and better, and also need to be kept in humid environments to extend their shelf life.

Moisture resistant

Recyclable

Customisable
